

Legislative Committee Monthly Report

Delaware Commission of Veterans Affairs

Reporting Period: July 2026

Submitted by: Legislative Committee

I. Overview

July 2026 was a **non-active legislative month** for veteran-related bills and committee activity. The General Assembly remained in recess, and no new veteran-impact legislation was introduced, debated, or advanced during this period.

The Legislative Committee continued its monitoring responsibilities and maintained readiness for post-primary legislative engagement.

II. Legislative Environment

Throughout July, Delaware's elected officials were primarily focused on **campaigning for the September 15 primary election**. This resulted in:

- No committee hearings
- No floor activity
- No movement on previously tracked veteran-related bills
- Limited availability of legislators for policy discussions

The committee maintained awareness of candidate activity and public messaging to ensure alignment with veteran priorities once the legislature reconvenes.

III. Committee Activity

Although no legislative actions occurred, the committee continued its standard responsibilities:

- **Monitoring** veteran-related legislation for any off-session updates
- **Tracking** public statements and campaign priorities relevant to veterans

- **Preparing** for post-primary outreach to both incumbents and newly nominated candidates
- **Maintaining communication** with veteran service organizations to ensure unified advocacy when the legislative cycle resumes

No formal meetings or legislative engagements were required during July.

IV. Summary

July 2026 was a quiet month legislatively, with no movement on veteran-related bills and no committee hearings. The Legislative Committee remained focused on monitoring the political landscape as elected officials campaigned for the September 15 primary. Preparations continue for renewed legislative engagement following the election.
